TABLE TOP
FRICTION
FEEDERS

A new contender in the budget friction feeder market has arrived! The Walco Systems F110E features a simple and robust design capable of feeding a wide variety of products. Movable belts and separator provide an exceptional degree of setup precision. Sealed shaft locking collar bearings provide low maintenance costs, and friction belt change is exceedingly simple. A range of options are available, such as an articulating acceleration assembly, and seamless integration with standard Walco Systems equipment.

Features:

- Quick and Easy Setup
- Variable Speed
- Independently Adjustable Belts & Separator
- Dual Durometer Separator
- Adjustable Exposure Table
- Simple Under 5 min. Belt Replacement
- Feeds Wide Variety of Products
- High Capacity Feed Hopper
- Heavy Gauge Steel Construction
- Rotatable Separator
- Sealed Shaft Locking Collar Bearings
- Magmetic Rear Adjustable Roller Wedge

Options:

Articulating Acceleration Assembly

Pulls a separation between pieces before leaving the feeder.

Remote Speed POT

Feeder Speed control POT located on a Walco transports base, allows feeder speed control from the same location as transport base and conveyor speed.

Speed Following

Allows Walco Systems feeders to follow transports base belt speeds, using one speed control.

Specifications:

F110E

Material Size: *Min. 2"W x 4"L - Max 11.0"W x 18"L*

Material Thickness: *1.125" Max (In Standard Confuration)*

Electrical: *110 VAC 1-Phase 5 Amp Circuit*

Interlock: *Dry Contact (Low Volt) Standard*

Physical: *18.1"L x 15.0"W x 21.25" H*

All Specifications Subject To Change Without Notice
